EXPERIENCE

CAPE PROPERTY PROS

West Dennis, Massachusetts

Finance Intern

June 2024- August 2024

- Mastered financial transaction management software, Builder Trend, to streamline workflows and enhance efficiency for residential construction projects with budgets up to \$1 million.
- Ensured precise financial tracking by organizing receipts and invoices, reducing errors and improving project accountability.
- Collaborated directly with clients, overseeing project costs and delivering personalized estimates, utilizing financial data to provide clear insights and maintain comprehensive oversight of construction expenses, resulting in improved client satisfaction and cost transparency.

KOSIAN BELTS

Chapel Hill, North Carolina

Business Owner

May 2021- August 2024

- Co-founded an ecommerce business, leading project management, business development, and marketing strategy by outsourcing over 1,000 belts from a Ukrainian factory.
- Communicated with factories to oversee production and procurement, resolving logistical challenges and distribution issues to ensure timely delivery.
- Implemented creative problem-solving and adaptability, overcoming logistical disruptions and optimizing shipping methods while setting up multiple ecommerce websites, leading to seamless product distribution.
- Collaborated across teams and with external partners, ensuring smooth operations, effective customer communication, and resolving operational hurdles to drive ecommerce venture success.

DONALDSONRUN RECREATION ASSOCIATION

Arlington, Virginia

Swim Coach

May 2021- August 2022

- Encouraged students to build confidence in and out of water by making swimming fun.
- Instructed participants in proper stroke techniques to encourage self-reliant swimming.

RESEARCH EXPERIENCE

- Authored research paper evaluating impact of New York's Schoolyards to Playgrounds program on children's educational outcomes utilizing Difference-in-Differences (DID) regression analysis on ELA and Math test scores, extensively using Excel to analyze data.
- Authored research on child discipline in Vietnam, analyzing data from over 35,000 households from Multiple Indicator Cluster Surveys (MICS). Demonstrated significant correlations between economic growth, violent discipline methods, and adverse cognitive and educational outcomes in children, with implications for national child welfare policy.

ADDITIONAL

Collegiate Athletics, Division III Men's Swim Team, Gambier, Ohio

September 2020- March 2024
